RESULTS

THE POWER OF INTELLIGENT INFORMATIONSM

The Challenge

In the midst of seeking answers to complex and potentially costly business problems, you'll save critical time and money by making the right decisions at the right time, based on accurate information and evidence.

Don't just get the facts. Understand them. Diversified Risk Management, Inc. goes beyond solving problems and providing answers, so you know *why* things happen, not just that *they* happened.

You'll get experienced, responsive, results-driven efforts with Diversified Risk Management, Inc. Our proven techniques will help you manage what you can't see.

Diversified Risk Management, Inc. has enabled companies to strategically maneuver through the risks resulting from employee misconduct, crimes against the business and other challenges that are encountered in today's business environment.

Don't spend your company's money in the court room. Our proprietary strategies produce effective, objective, unimpeachable results.

The Benefit

What we do for you:

- Provide facts to help implement change and improve conditions.
- Identify risks to defend against legal and safety complications.
- Energize your bottom-line and positively affect your company's future.
- Expose potential problems that negatively impact morale.
- Uncover actionable facts and evidence to help you perform better than ever.
- Analyze information to proactively improve and solve potential problems.
- Discover and defuse potential liabilities.

The Solution

We do this with the skillful application of multiple disciplines that include:

- Physical and Electronic Surveillance
- Forensic Analysis
- Research and Audit
- Investigative and Proprietary Interview Techniques

The approach is designed to meet your objectives, provide actionable evidence and present clear, concise facts. Our proprietary forensic interviewing techniques yield high success rates for obtaining voluntary admissions, solving complex cases, and producing tangible, measurable results.

Our innovative technologies and investigative techniques bring you immediate solutions to your workplace and business problems, access to information to make well-informed decisions, and dramatic savings.

Basing decisions on defective information can compromise your company's strategic direction, and eventually its continued existence. Incomplete and unreliable efforts will fail to identify risks, presenting unnecessary legal challenges and costly expenses.

Diversified Risk Management, Inc. investigative capabilities are unparalleled in the industry. We have a longstanding reputation for thoroughness, discretion and a clear understanding of labor and employment workplace-related matters.

Our firm offers a broad range of specialized risk management and investigation services that are designed to control loss and minimize exposure by providing innovative and strategic business solutions. Diversified Risk Management, Inc. assists corporations, non-profit organizations and law firms in identifying, mitigating, and responding to risks through a comprehensive and integrated suite of professional service offerings.
